This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

It is one of the greatest pleasures of later life to be able to recall and review the Books read during the progressing years of life — from childhood to old age.

EVERY MAN, WOMAN and CHILD should have a copy of this book, so that, at any period of their lives, they may be able to recall the Title and Contents and the Names of the Authors and Publishers of all the Books they have ever read.

The Object

of this book is to refresh and strengthen the memory, and to enhance the pleasure and increase the value of the benefit to be derived from the reading of books.

Books are our best friends. Ought we to forget them?

What man or woman would not be glad to have on record, for convenient reference, a full list of all the books he or she has ever read, with the names of the authors, the date of their reading, the subject treated, the names of the principal characters, with page index to marked and striking passages, and a memorandum of the impression made upon the mind at the time each book was read?

Such a book would be, and will be, invaluable to the living and a treasure of pleasant memories of the dead.

This Book

is a Memorandum of the Books I have read, with the names of the Authors and Publishers; of the date of reading; of the names of the principal characters, or of the subject treated, and of my impressions and comments; also of page references to marked and striking passages.

It is also a Memorandum of Books Loaned, the names of the Borrowers and the date of taking.

BORROWED
BOOKS.

Borrowers of Books

By means of it you can easily keep track of and recover rare books which otherwise might be wholly lost to your library.
